Physics, Spanish, Theater, the latter being a license under Fine Arts, and Social Studies. History, Economics, Political Science, and Psychology majors are licensed under the Social Studies program. Please see the Teacher Education Program web site for more details.

Pre-Engineering Preparation

Wabash College offers joint programs (known as dual degree programs) with Purdue University, Columbia University and Washington University-St. Louis. In these programs, students may study the liberal arts at Wabash for three years and engineering or applied science at Purdue, Columbia or Washington, typically for two years. These programs lead to both the Bachelor of Arts degree from Wabash and the Bachelor of Science degree in engineering or applied science from Purdue, Columbia or Washington.

Wabash students who participate in the joint program may qualify for the A.B. degree by completing all of the Wabash requirements for graduation (listed in the curriculum section) other than the 34-course minimum, and by successfully completing the appropriate number of courses at Purdue, Columbia or Washington. Senior comprehensive and oral examinations may be taken during the junior year or during the first year of work at the engineering school, either on the Wabash campus or, under a program approved by the Wabash faculty, at the engineering school administered under supervision of the dean's office of the School of Engineering. If the oral exam is taken after the junior year, it must be taken on the Wabash campus sometime during the two years of engineering school.

Students not completing the requirements for the Wabash A.B. as outlined above may be accepted at the end
